Discord

Discord Bot Developer

September 2020 - Present (2 years 2 months)

Dubai

A discord bot built using Python.

A powerful, multi-purpose bot that was used for recreation and moderating servers in discord.

Had features for multiple games such as tic-tac-toe, wordle, frog.io and many more.

Could fetch useful news in an asynchronous environment about world news, new movie releases, covid stats updates.

Also had a music bot feature which could be used to play music in discord voice channels to jam along with friends.
